Travel & Expense Standard for Suppliers

I.) Scope & Purpose

This Travel & Expense Standard for Suppliers applies to all Suppliers seeking reimbursement for travel expenses incurred during the performance of their services established under a business agreement (including Statement of Works) with Hillenbrand, Inc., including its affiliates (collectively referred to as "Company"). The purpose of this Travel Standard is to provide Suppliers with the company's travel reimbursement requirements.

THE COMPANY RESERVES THE RIGHT NOT TO REIMBURSE SUPPLIERS FOR TRAVEL EXPENSES THAT ARE NOT PREAPPROVED IN ACCORDANCE WITH THIS TRAVEL STANDARD.

II.) Travel Requests

- Suppliers must submit a travel request to the Company prior to booking any reimbursable travel.
- The travel request must state the purpose, destination, and duration. Further, the travel request must itemize all expenses including the class fare and must include a total estimated cost of the trip.

III.) Travel Authorization

- The Company has the sole discretion of approving or rejecting all travel requests.
- Suppliers must have an approved travel request prior to incurring any reimbursable travel expenses.
- When booking travel pursuant to an approved travel request, Suppliers should minimize travel expenses and stay within the total estimated cost set forth in the approved travel request.

IV.) Reimbursable Travel Expenses

Listed below are types of reimbursable travel expenses in which the Company may, at its sole discretion, preapprove under a Travel Request.

- **Air Travel:** Coach/economy class fare. Suppliers should minimize the fare by making reservations at least 14 days in advance for domestic trips, and at least 21 days in advance for international trips. The Company may, at its sole discretion, approve higher class fare for certain situations such as consecutive flights over 6 hours.
- **Airport Parking:** Long-term economy parking at airport lots. The Company may, at its sole discretion, approve short-term parking at airport lots for one-day trips.
- **Public transportation and/or rideshare:** Reimbursable when other forms of ground transportation are not available or when the cost of using is less than the cost of car rental or other public transportation.
- **Personal Vehicles:** Mileage will be reimbursed at the standard IRS rate. Trips more than 150 miles/241 roundtrip kilometers per day, require the traveler to rent a car versus using their personal car and expensing the mileage.
- **Rental car:** Suppliers must select a small or mid-size vehicle when it is the most cost effective and convenient ground transportation. The Company may reimburse fuel associated with the rental car but will not reimburse fuel purchased from the rental car agency upon return unless an appropriate reason is documented. Suppliers shall not select the option to prepay for fuel at the rental car agency at the time of the rental pick-up.
- **Lodging:** Reimbursable expenses include the lowest cost and most practical hotel to meet business needs. Luxury or high-cost hotels should be avoided unless a special promotion makes the cost less than or equal to more moderately priced accommodations.
 - **Lodging Parking:** Standard parking rates at hotels (not to include valet).
- **Meals:** Reimbursable expenses include reasonable business-related meals and customary service gratuities. Detailed receipts including guest name(s), company name, and business reason are required.

V.) Non-Reimbursable Travel Expenses

In general, the Company will not reimburse the following items and expenses listed below. Please note that the list below is not exhaustive.

- **Cancellations:** Suppliers are responsible for cancelling hotel rooms, flights, rental cars and other travel arrangements. Suppliers must make every effort to meet the cancellation deadlines to avoid cancellation fees, non-refundable fares and penalty charges.
- **Fines:** Suppliers are responsible for fines, parking tickets, traffic violations, etc.
- **Loss:** Suppliers are responsible for any damage or loss incurred during travel.
- **Travel Insurance:** Suppliers are responsible for travel insurance coverage.
- **Non-Approved Expenses: Suppliers are responsible for expenses not preapproved in writing by the Company.**

VI.) Reimbursement Process

- Suppliers must submit an expense report to the Company within 30 days after incurring such expenses. The expense report must be itemized and include copies of receipts for all reimbursable expenses greater than \$25.
- For all expense reports, expenses in foreign currency are to be converted by the Supplier and reported in local currency of the designated travel location at the actual exchange rate effective on the day of the transaction. This rate must be supported by itemized receipts. The currency conversion must be indicated on each receipt.
