#### UNITED STATES SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

#### FORM 8-K

#### CURRENT REPORT

Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934

Date of Report (Date of earliest event reported): December 10, 2015

#### HILLENBRAND, INC.

(Exact Name of Registrant as Specified in Charter) 1-33794

Indiana (State or Other Jurisdiction of

Incorporation)

(Commission File Number)

26-1342272 (IRS Employer Identification No.)

One Batesville Boulevard Batesville, Indiana

(Address of Principal Executive Office)

47006 (Zip Code)

Registrant's telephone number, including area code: (812) 934-7500

Not Applicable

(Former Name or Former Address, if Changed Since Last Report)

Check the appropriate box below if the Form 8-K filing is intended to simultaneously satisfy the filing obligation of the registrant under any of the following provisions:

□ Written communications pursuant to Rule 425 under the Securities Act (17 CFR 230.425)

□ Soliciting material pursuant to Rule 14a-12 under the Exchange Act (17 CFR 240.14a-12)

□ Pre-commencement communications pursuant to Rule 14d-2(b) under the Exchange Act (17 CFR 240.14d-2(b))

□ Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

#### Item 7.01 Regulation FD Disclosure

A copy of presentation slides to be used by Hillenbrand, Inc. (the "Company") in investor presentations beginning December 10, 2015, is attached as Exhibit 99.1 to this Current Report on Form 8-K. These presentation slides are also available on the Company's website under "Investor Relations" at www.hillenbrand.com.

The information furnished pursuant to this Item 7.01, including Exhibit 99.1, shall not be deemed "filed" for purposes of Section 18 of the Securities Exchange Act of 1934 ("Exchange Act") or otherwise subject to the liabilities under that Section and shall not be deemed to be incorporated by reference into any filing of the Company under the Securities Act of 1933 or the Exchange Act, except as shall be expressly set forth by specific reference in such filing.

#### **Non-GAAP Financial Measures**

In addition to financial measures prepared in accordance with accounting principles generally accepted in the U.S. (GAAP), we also provide non-GAAP operating performance measures. These non-GAAP measures are referred to as "adjusted" and exclude expenses associated with backlog amortization, inventory step-up, business acquisition and integration, restructuring, and antitrust litigation. The related income tax for all of these items is also excluded. This non-GAAP information is provided as a supplement, not as a substitute for, or as superior to, measures of financial performance prepared in accordance with GAAP.

One important non-GAAP measure that we use is Adjusted Earnings Before Interest, Income Tax, Depreciation, and Amortization ("Adjusted EBITDA"). As previously discussed, a part of our strategy is to selectively acquire companies that we believe can benefit from our core competencies to spur faster and more profitable growth. Given that strategy, it is a natural consequence to incur related expenses, such as amortization from acquired intangible assets and additional interest expense from debt-funded acquisitions. Accordingly, we use Adjusted EBITDA, among other measures, to monitor our business performance.

Another important non-GAAP measure that we use is backlog. Backlog is not a term recognized under GAAP; however, it is a common measurement used in the Process Equipment Group industry. Our backlog represents the amount of consolidated revenue that we expect to realize on contracts awarded related to the Process Equipment Group. Backlog includes expected revenue from large systems, equipment, and to a lesser extent, replacement parts, components, and service.

We use this non-GAAP information internally to make operating decisions and believe it is helpful to investors because it allows more meaningful period-to-period comparisons of our ongoing operating results. The information can also be used to perform trend analysis and to better identify operating trends that may otherwise be masked or distorted by these types of items. Finally, the Company believes such information provides a higher degree of transparency.

#### Item 9.01 Financial Statements and Exhibits.

(d) Exhibits

Exhibit Number 99 1

#### **Disclosure Regarding Forward-Looking Statements**

Throughout this presentation, we make a number of "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. As the words imply, these are statements about future plans, objectives, beliefs, and expectations that might or might not happen in the future, as contrasted with historical information. Forward-looking statements are based on assumptions that we believe are reasonable, but by their very nature are subject to a wide range of risks.

Accordingly, in this presentation, we may say something like,

"We expect that future revenue associated with the Process Equipment Group will be influenced by order backlog."

That is a forward-looking statement, as indicated by the word "expect" and by the clear meaning of the sentence.

Other words that could indicate we're making forward-looking statements include the following:

intend	believe	plan	expect	may	goal	would
become	pursue	estimate	will	forecast	continue	could
targeted	encourage	promise	improve	progress	potential	should

This is not an exhaustive list, but is intended to give you an idea of how we try to identify forward-looking statements. The absence of any of these words, however, does not mean that the statement is not forward-looking.

Here's the key point: Forward-looking statements are not guarantees of future performance, and our actual results could differ materially from those set forth in any forward-looking statements. Any number of factors, many of which are beyond our control, could cause our performance to differ significantly from what is described in the forward-looking statements.

For a discussion of factors that could cause actual results to differ from those contained in forward-looking statements, see the discussions under the heading "Risk Factors" in Item 1A of Part I of our Form 10-K for the period ended September 30, 2015, located on our website and filed with the SEC. We assume no obligation to update or revise any forward-looking statements.

#### Disclosure regarding forward-looking statements

Forward-Looking Statements and Factors That May Affect Future Results:

Throughout this presentation, we make a number of "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. As the words imply, these are statements about future plans, objectives, beliefs, and expectations that might or might not happen in the future, as contrasted with historical information. Forward-looking statements are based on assumptions that we believe are reasonable, but by their very nature are subject to a wide range of risks.

Accordingly, in this presentation, we may say something like,

"We expect that future revenue associated with the Process Equipment Group will be influenced by order backlog."

That is a forward-looking statement, as indicated by the word "expect" and by the clear meaning of the sentence.

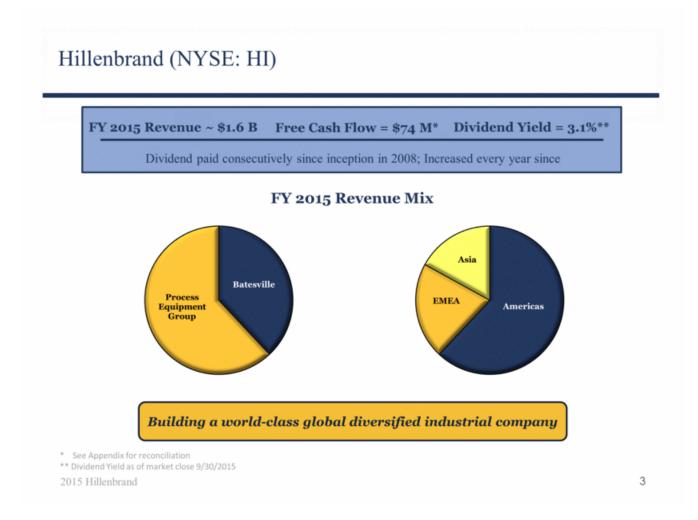

Other words that could indicate we are making forward-looking statements include:

intend	believe	plan	expect	may	goal	would
become	pursue	estimate	will	forecast	continue	could
targeted	encourage	promise	improve	progress	potential	should

This is not an exhaustive list, but is intended to give you an idea of how we try to identify forward-looking statements. The absence of any of these words, however, does not mean that the statement is not forward-looking.

Here is the key point: Forward-looking statements are not guarantees of future performance, and our actual results could differ materially from those set forth in any forward-looking statements. Any number of factors, many of which are beyond our control, could cause our performance to differ significantly from what is described in the forward-looking statements.

For a discussion of factors that could cause actual results to differ from those contained in forward-looking statements, see the discussions under the heading "Risk Factors" in Item 1A of Part I of our Form 10-K for the period ended September 30, 2015, located on our website and filed with the SEC. We assume no obligation to update or revise any forward-looking statements.

#### Hillenbrand's strategy is focused on three key areas...

## >>>> Develop Hillenbrand into a world-class global diversified industrial company

> Two platforms with market leading brands

➤ ~\$1 billion in Acquisitions since 2010

#### >>>> Leverage our strong financial foundation and the Hillenbrand Operating Model

- Deliver sustainable profit growth
- Expand revenue
- > Maintain substantial free cash flow

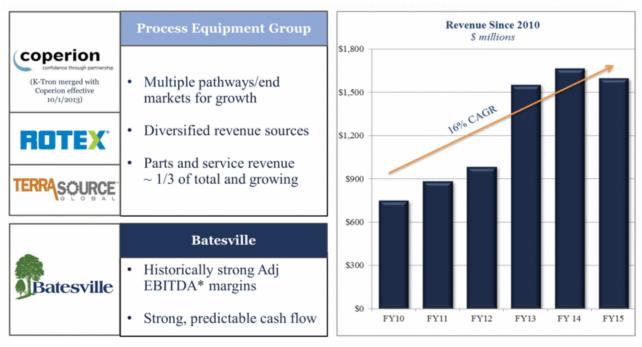

## >>>> Reinvest our cash in new growth initiatives, both organic and inorganic, that create shareholder value

- > Highly engineered, mission critical niche products
- > Market leaders with strong recurring revenue

## ... and our acquisition strategy is to pursue three different types of acquisitions

	Product, Technologies & End Markets	Size of Opportunities*	Magnitude of Synergies	Likely Deal Source
Add-on	Same	Small (<\$75M)	High	Internal
Adjacency	Similar	Medium (\$50-200M)	Medium	Internal/External
New Platform	Different	Large (>\$200)	Minimal	External

## Hillenbrand is transforming into a global diversified industrial company

\*See Appendix for reconciliation

### The Hillenbrand Operating Model drives our continued

transformation into a world-class global diversified industrial company

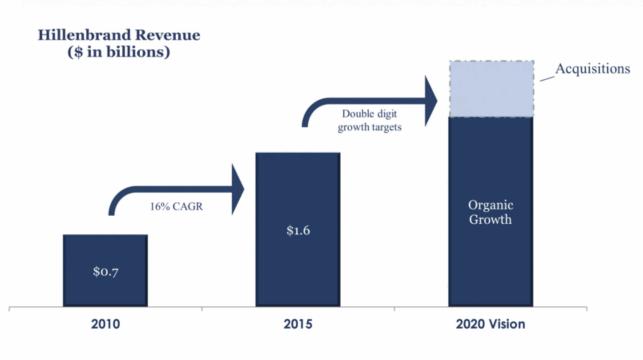

>>>> The HOM is a consistent and repeatable framework that is designed to produce sustainable and predictable results.

It defines how Hillenbrand runs the business and focuses on three key steps:

- 1. Understand the business
- 2. Focus on the critical few
- 3. Grow to get bigger and stronger

We drive profitable growth and superior value for our customers and shareholders through the Hillenbrand Operating Model.

## We expect continued growth both organically and through acquisition

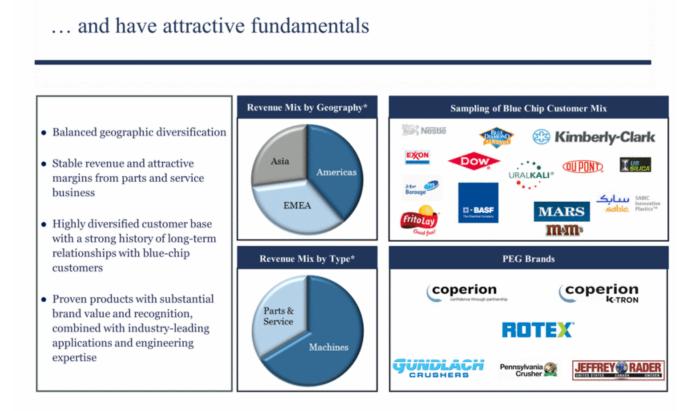

# Hillenbrand

## **Process Equipment Group**

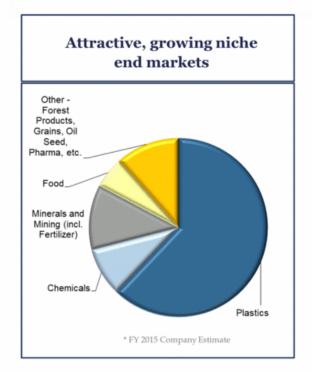

Our Process Equipment Group companies manufacture mission critical world-class industrial equipment...

<b>Coperion</b> (K-Tron merged with Coperion effective 10/1/2013)	<ul> <li>Compounders and extruders</li> <li>Materials handling equipment</li> <li>Feeders and components</li> <li>System solutions</li> <li>Service and parts</li> </ul>
Rotex	<ul> <li>Separating equipment</li> <li>Sizing equipment</li> <li>Service and parts</li> </ul>
TerraSource Global	<ul> <li>Crushers</li> <li>Materials handling equipment</li> <li>Service and parts</li> </ul>
2015 Hillenbrand	10

\* FY 2015 2015 Hillenbrand

## Process Equipment Group is diversified across a broad range of attractive niche end markets that benefit from megatrends...

#### Megatrends driving growth

- Growing global population
- Rapidly expanding middle class
- Rising demand for food and energy

... and our strategy focuses on organic and inorganic growth

## >>>> Focus on key niche high-growth markets with strong growth potential

Engineered PlasticsPetrochemicalsProcessed Food

- Water/Wastewater
  - Recycling

#### >>>> Leverage scope and scale to accelerate global growth

Improve access to underpenetrated geographies

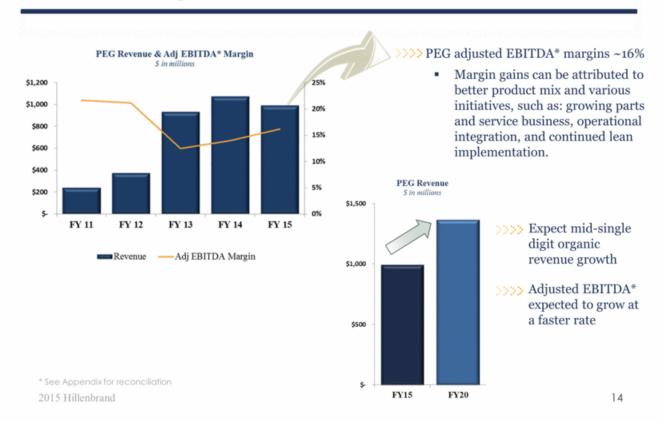

•China •Russia

India
 Latin America

#### >>>> Expand recurring revenue in our operating companies

## >>>> Margin expansion through the implementation of the Hillenbrand Operating Model

## Process Equipment Group has a strong, sustainable financial track record that is expected to continue

# Hillenbrand

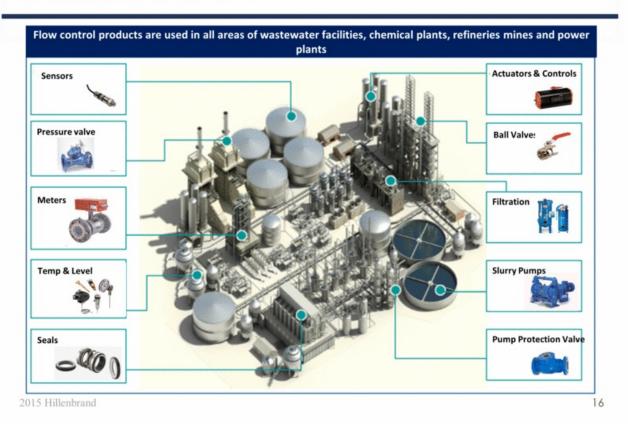

## Flow Control Space - ABEL

The Flow Control space includes various niche products used in many processing facilities...

#### ... and the market remains highly fragmented System engineering ls / bushings Loading Arm rings s / vanes Fluid characterization Fluid movement Mixing / blending Filtration Regulators Labricators Air elimination N.D. testing Leak detection Heating / cooling Vapor recovery Grounding / overflow Pipeline cleaning Flow Design Pumps Nozzies Spray guns Loading arms Grounding / overflow Dispensing cabinets Construction Installation Commissioning Pressure, level & Compressors temperature (PLT) Filtration Valves Operating Seals Solenoids Injectors Analytics Secondary containment Seals - Constituency Control systems - Contamination Metering Pipeline re-hab/re-line ← Components and aftermarket – parts, maintenance, inspection & repair services → 17

Expanding in the flow control space advances our vision to transform into a world-class Global Diversified Industrial company

## >>>> We believe the Flow Control space represents an attractive platform build-out opportunity as companies in the space tend to be:

- Highly fragmented space
- Niche market providers are very profitable
- Relatively resilient to economic cycles

#### >>>> Our long-term vision for the Flow Control Platform is to:

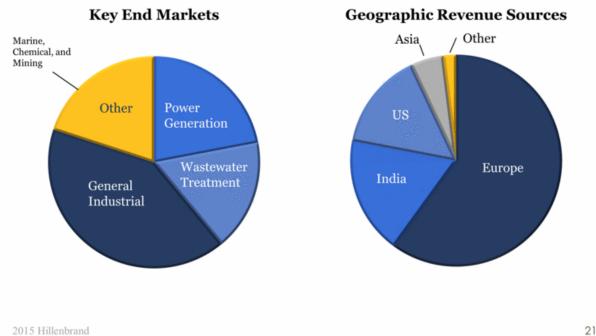

- Grow to achieve scale
- Leverage our global footprint to drive future revenue and cost synergies
- Penetrate new end markets

## The ABEL acquisition advances the Hillenbrand strategy

Transaction Description	<ul> <li>Hillenbrand acquired ABEL for 95€ million in cash</li> <li>ABEL designs and manufactures energy-efficient positive displacement pumps</li> <li>TTM (ended 9/30/15) revenue of €32 million; EBITDA of €8 million</li> </ul>
Transaction Consideration	<ul> <li>All-cash transaction purchase price of €95 million funded in Euro under Hillenbrand's \$700 million credit revolver</li> </ul>
Strategic Fit	<ul> <li>ABEL is part of the Process Equipment Group</li> <li>Highly engineered equipment for niche markets</li> <li>Robust parts and service revenue component</li> <li>Provides entry into the flow control space, which has very attractive market dynamics</li> </ul>
Financial Impact	<ul> <li>ABEL is a highly profitable business with a low asset base that generates significant cash</li> <li>Expected to be accretive to earnings in 2016, net of transition costs</li> </ul>
Closing	• The deal closed October 2 <sup>nd</sup> .

ABEL is a g	rowing, high m	argin business
Pumping Solutions	▪ ~30% of revenue	
Pumps	<ul> <li>~20% of revenue</li> </ul>	
Parts and Services	▪ ~ 50% of revenue	
2015 Hillenbrand		20

### ABEL has attractive end markets and is geographically positioned for growth

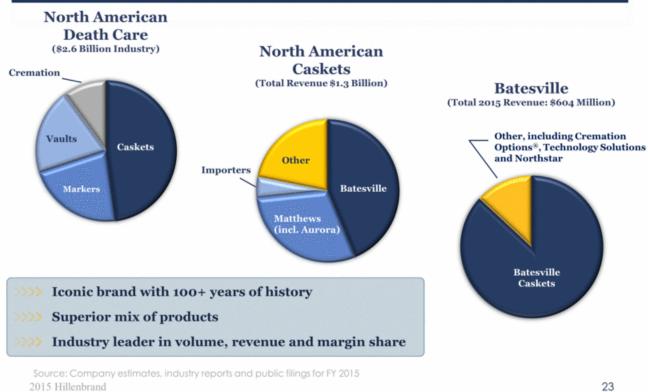

# Hillenbrand

### Batesville

### Batesville is the industry leader in the largest and most profitable segment of the North American death care industry

### Batesville's strategy is to optimize the casket business, capitalize on growth opportunities, and sustain margins

#### **Optimize the Profitable Casket Business**

- Build and deliver value propositions aligned to customer needs
- Merchandising and consultative selling
- New product development

#### **Capitalize on Growth Opportunities**

- $\bullet\,$  Cremation Options  $^{\tiny(\!R\!)}$  products caskets, containers and urns
- Technology Solutions websites & business management software

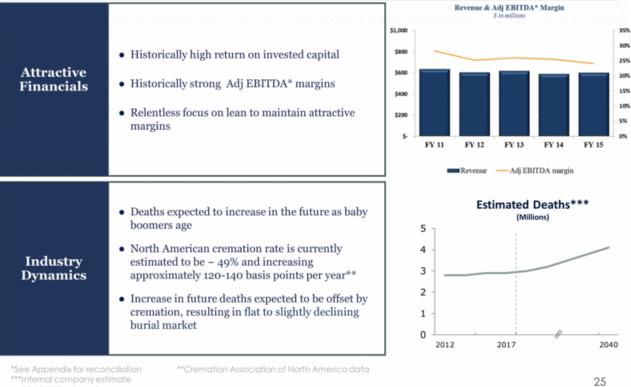

#### Maintain Attractive Margins

- Operational excellence through Hillenbrand Operating Model
- Lean manufacturing and distribution
- Continuous improvement in all business processes

## Batesville has predictable strong cash flow and attractive margins

# Hillenbrand

### Disclosure regarding non-GAAP measures

While we report financial results in accordance with accounting principles generally accepted in the United States (GAAP), we also provide certain non-GAAP operating performance measures. These non-GAAP measures are referred to as "adjusted" and exclude expenses associated with backlog amortization, inventory step-up, business acquisition and integration, restructuring, and antitrust litigation. The related income tax for all of these items is also excluded. This non-GAAP information is provided as a supplement, not as a substitute for, or as superior to, measures of financial performance prepared in accordance with GAAP.

One important non-GAAP measure that we use is Adjusted Earnings Before Interest, Income Tax, Depreciation, and Amortization ("Adjusted EBITDA"). As previously discussed, a part of our strategy is to selectively acquire companies that we believe can benefit from our core competencies to spur faster and more profitable growth. Given that strategy, it is a natural consequence to incur related expenses, such as amortization from acquired intangible assets and additional interest expense from debt-funded acquisitions. Accordingly, we use Adjusted EBITDA, among other measures, to monitor our business performance.

Another important non-GAAP measure that we use is backlog. Backlog is not a term recognized under GAAP; however, it is a common measurement used in the Process Equipment Group industry. Our backlog represents the amount of consolidated revenue that we expect to realize on contracts awarded related to the Process Equipment Group. Backlog includes expected revenue from large systems, equipment, and to a lesser extent, replacement parts, components, and service.

We use this non-GAAP information internally to make operating decisions and believe it is helpful to investors because it allows more meaningful period-to-period comparisons of our ongoing operating results. The information can also be used to perform trend analysis and to better identify operating trends that may otherwise be masked or distorted by these types of items. Finally, the Company believes such information provides a higher degree of transparency.
